SALES HELPS

For

Jackson & Perkins Company Nationally Advertised Roses

Color Electrotypes

As a part of the selling program for Jackson & Perkins Company patented roses, four process color electros are available for your printer to use in your catalogue in accordance with the following program:

1. Applications for permission to use electros should be made in each instance to Jackson & Perkins Company, stating for what catalogue they are desired and such electros may not be used for any other job than that for which permission is granted. If other use is made, printer shall be subject to charge of $200.00 for each plate so used.

2. All electros are loaned only (and not sold) and must be returned prepaid to the J. Horace McFarland Company as soon as the job is printed.

3. Each set of electros carries Copyright notice and Plant Patent notation, and when electros are printed the Copyright notice and Plant Patent number must appear.

4. Jackson & Perkins Company is fully protected by Copyright on the use of these color plates in connection with the sale of field-grown plants of Patented Roses for garden planting.

5. Full-size color plates of any Jackson & Perkins Company subjects available free of charge if "full" plate is printed (size 5½ in. x 8 in.) and electros not cut.

6. Standard cut-out sizes may be had at service charge of $5.00 per set for loan of electros. If special cut-out sizes are required, the service charge will be $15.00 per set plus any additional cost of cutting or tooling.

7. Credit for service charge for standard cut-out size electros of any variety will be remitted in full if purchases in that variety amount to $100.00 or over in a current fall and spring season.

8. Arrangements have also been completed whereby the following Horticultural Printers are supplied with color electros on a charge basis which they retain in their possession and may use as the occasion arises with only the restriction that we be consulted in advance. If you have your printing done by any one of these concerns, we suggest you consult them.

J. Horace McFarland Co., Harrisburg, Pa.
DuBois Press, Rochester, N. Y.
A. B. Morse Co., St. Joseph, Mich.
A. T. De La Mare Co., New York, N. Y.
William Byrd Press, Richmond, Va.
Sweeney, Straub & Dimm, Portland, Ore.

PHOTOGRAPHS

are available without charge. They are suitable for making halftones in any size desired for black and white printing in catalogs, etc.

Only Tested Varieties Offered

Only by thorough testing under varied conditions is it possible to determine which new Roses are suitable for widespread planting. This is why the Jackson & Perkins Company maintain their immense Research Gardens at Newark, N. Y., and growing stations at key-points from coast to coast, north to south. In this vast outdoor laboratory all new Rose Creations are held under closest scrutiny for long periods. Only those Roses which have been fully tested for hardiness, adaptability, and blooming qualities, and found suitable in every way, are introduced.

Protected by Plant Patents

PLANT PATENT NOTICE

The following provisions apply to all patented and trade-marked plants we sell:

Each plant so indicated is a patented variety under the laws of the United States and any asexual reproduction or distribution by sale, gift, or otherwise of scions, buds or cuttings for such reproduction, without license from us, constitutes an infringement of the patent. Any unauthorized reproduction, sale or other distribution of reproducing propagating material of these patented plants, prohibited by the patent under these names and trademarks or any other name or names, will subject the reproducer, seller or distributor thereof to prosecution for infringement under the United States Patent Laws.

Persons or Firms

not licensed by us to sell these patented plants at wholesale are limited to resale at retail only.

We cannot undertake to supply long and much assorted lists of stock calling for only small quantities of each kind, save at an advance above our printed rates according to quantity.

J. & P. ROSE SPECIALTIES—Continued

A general view of the J & P Rose Garden at the New York World's Fair.

Foreign Rights

on J. & P. Patented and Novelty Roses are reserved and no plants may be shipped outside of the United States without our consent.

Prices

WHOLESALE PRICES are uniform everywhere.

RETAIL PRICES. It is the established policy of Jackson & Perkins Company that purchasers of these patented and nationally advertised Roses shall not list or sell them at less than the per each or per dozen retail prices as established for the current season (not less than 3 of a kind at dozen rates) or include them in any group, collection, or combination offers except in connection with other patented Roses, the retail selling prices of which are definitely established, and then only in groups of not less than 3 patented plants and at a total selling price for the group figured at not less than the dozen rate of each plant in the group —also that these patented plants are not to be featured as a premium in any instance and that **failure to comply with this policy will result in discontinuance of the supply.**

The Wholesale Prices in our lists apply only on Wholesale Quantities. Orders should call for ten of a kind and size, and beyond that for multiples of ten. Stock in our storage buildings is tied in 10's and we prefer not to break bundles if avoidable.

J. & P. ROSE SPECIALTIES—Continued

WHOLESALE PRICES (Except as Noted)

1 to 10 plants of a variety at the each rate
10 to 20 plants of a variety at the ten rate
20 to 250 plants of a variety at the hundred rate
250 or more plants of a variety at the thousand rate

RETAIL PRICES	WHOLESALE PRICES			
	Per Each	Per 10	Per 100	Per 1000
$2 00 Rose	$1 25	$11 00	$100 00	$850 00
1 50 Rose	1 00	9 00	75 00	650 00
1 25 Rose	75	7 00	60 00	500 00
1 00 Rose	60	5 50	50 00	400 00

75 Rose	45	4 00	35 00	250 00

Now You Can Guarantee J. & P. Advertised Roses

JACKSON & PERKINS COMPANY AGREES to handle replacements of J. & P. Patented Roses only, under the following conditions:

(a) Each replacement order must be accompanied by a certificate—blanks supplied by Jackson & Perkins Company.

(b) Said certificate must have appended to it a list of names and addresses of persons to whom replacement will be made, and the quantities and varieties to each.

(c) Original Plant Patent labels for each plant must be returned to Jackson & Perkins Company with the replacement order.

(d) Said certificate must be postmarked not later than October 1 annually and must cover only losses actually occurring during the spring and fall seasons immediately preceding its date.

(e) Order for replacements will be handled, billed, and shipped to the dealer (and not direct to retail customer) as a separate order. No credit will be given on original purchase invoice for reduced cost of replacements.

(f) Replacement orders will be invoiced at 25c per plant, regardless of original purchase price.

*** NEW THIS YEAR**

ALEZANE (Pahissa 1934). Plant Patent No. 116. **(Retails $1.25 each; $12.50 per doz.)** Bud urn shaped, large chestnut brown; flowers cupped opening to sorrel, unfurling from sorrel to rich apricot and reverse of petals sorrel striped with yellow veins. Petals not affected by hot or wet weather. Growth very vigorous, upright branching dark green foliage. Starts blooming very early.

ALICE HARDING (Mallerin 1937). Plant Patent No. 202. **(Retails $1.50 each; $15.00 per doz.)** A contribution of the great French Hybridizer Mallerin. The bud is large, golden yellow flaked with carmine, and the open bloom is of classic form, pure gold, borne singly on long stems, long lasting, and fading hardly any at all; sweet honey fragrance. Gold medal of American Rose Society, 1936.

AMELIA EARHART (L. Reymond 1931). Plant Patent No. 63. **(Retails $1.25 each; $12.50 per doz.)** Large, ovoid bud, cream with blushes; flowers very full, graduating from a deep yellow center to an outer collarette of large cream petals with a blush overtone; extremely fragrant; strong grower; free bloomer; leathery dark green foliage. A worthwhile addition.

ANNE POULSEN Floribunda. (Poulsen 1935). Plant Patent No. 182. **(Retails .75 each; $7.50 per doz.)** Large semi-double flowers scarlet crimson; scented, in large sprays, always in bloom, plants robust and hardy, for mass color effect, low hedges or borders.

BETTER TIMES (Jos. H. Hill Co. 1934). Plant Patent No. 23. **(Retails $1.00 each; $10.00 per doz.)** The brilliant cerise flowers are large, double and delicately fragrant. Being produced on long, strong stems, they are excellent for cutting; foliage is leathery, dark green; a very free full bloomer.

BETTY PRIOR Floribunda (Prior 1935). Plant Patent No. 340. **(Retails $1.00 each; $10.00 per doz.)** An improved form of Else Poulsen. Outside of petals dark carmine, inside several shades lighter. Borne in large clusters on strong stems, very fragrant. Foliage pale green, tinted purple; very vigorous and continuous bloomer. Very resistant to mildew and diseases. Certificate of Merit N. R. S.

BLAZE Clbr. Patent No. 10. **(Retails $1.00 each; $10.00 per doz.)** The first hardy everblooming scarlet climber. Blaze combines the vigor, beauty and hardiness of Paul's Scarlet Climber with the everblooming qualities of a favorite everblooming Rose. Propagated from blooming wood only.

J. & P. ROSE SPECIALTIES—Continued

A small section of the Floribunda planting in the J & P New York World's Fair Garden, showing Betty Prior with Pink Aachen in the foreground.

CARILLON Floribunda. (J. H. Nicolas 1935.) Plant Patent No. 136. **(Retails .85 each; $8.50 per doz.)** The Singing Rose! Always cheerful and gay! A much improved Mme .Edouard Herriot, and of easier culture. To be appreciated at its full value, Carillon should be planted in groups. The plant is branching and spreading, thus ideal to blanket a bed. the bud is orange-scarlet, long-pointed and opens up to a lively coral-flame.

COUNTESS VANDAL (M. Leenders 1932). Plant Patent No. 38. **(Retails $1.00 each; $10.00 per doz.)** The Rose of Roses! "Countess" has been enthusiastically received by rose lovers everywhere. Its long pointed bud, its distinctive shadings of coppery-bronze suffused with soft gold and its form are a continuous "movie" developing new beauty at all times during its long life. A leading seller among Hybrid Tea Roses.

*DICKSON'S RED

First award—"All America Rose Selections" for Hybrid Teas 1940

(Dickson 1939) Patent Applied For. **NEW THIS YEAR.** A glowing scarlet-red Rose from the Emerald Isle. The ripe warmth of its color is constant, its abundant bloom unflagging all through the summer. Happily, also, it is rich in the fragrance you instinctively expect in a red Rose. If the sun has been cruel to your reds, here is a "must have" for your list—it defies the hottest sun's rays and retains its color undimmed. So rugged, so completely satisfying is this rose that we predict it will be a garden mainstay, a Rose for the years, and as the blooms are produced singly on long, strong stems it will be your favorite red Rose for cutting. Awarded the Gold Medal by the National Rose Society of England (1939)—Also received the Clay Cup for Fragrance.

RETAILS $1.50 each—3 to 49 plants $1.35 each—50 to 100 plants $1.20 each.

WHOLESALE—1 to 9 Plants	**$1.00 each**	**(1-3 off retail price)**
10 to 19 Plants	**.82½ "**	**(45% off retail price)**
20 to 249 Plants	**.69½ "**	**(55% off retail price)**
250 to 499 Plants	**.60 "**	**(60% off retail price)**
500 or over Plants	**.52½ "**	**(65% off retail price)**

J. & P. ROSE SPECIALTIES—Continued

DONALD PRIOR Floribunda (Prior 1934). Patent Applied For. **(Retails $1.00 each; $10.00 per doz.)** The flowers are semi-double, cup-shaped, bright scarlet, flushed crimson; size much larger than Else Poulsen. Fragrant; foliage dark green; very free flowering. This is one of the most striking colors of the Floribunda Group.

DOUBLOONS Clbr. (Horvath 1934). Plant Patent No. 152. **(Retails $1.50 each; $15.00 per doz.)** A Hybrid of our native Rose Setigera. Clusters of very large cup-formed, saffron yellow blooms, opening one after the other, thus prolonging the season. Long heavy canes. Undoubtedly the best yellow climber to date. Has the tendency to repeat in midsummer.

ECLIPSE (J. H. Nicolas 1936). Plant Patent No. 172. **(Retails $1.25 each; $12.50 per doz.)** An international sensation. The long stream-lined bud, enhanced by ornamental sepals, is of rich gold without shading. Petals are large and tough, but not numerous, averaging 20 to 25, with more in the autumn. One of the most popular of the new patented H. T. varieties. Gold medal American Rose Society.

ETERNAL YOUTH (Aicardi 1937.) Plant Patent No. 332. **(Retails $1.50 each; $15.00 per doz.)** The perfectly formed buds are long pointed, colored a beautiful soft pink with yellow at the base of each petal. Half open the flowers retain their high center and their rich pink color. The full open flowers are comfortably double and expose a large center of graceful deep yellow stamens. The color remains a clear pink throughout, suffused with just a touch of salmon. The growth is vigorous. The foliage is abundant. **(Available Spring Only).**

***GOLDEN LIGHT** Clbr. (J. H. Nicolas 1939). Propagation Rights Reserved. **(Retails $1.50 each; $15.00 per doz.)** In intriguing free blooming yellow Nicolas Seedling. The pointed bud is orange in color with interesting carmine markings. The flower is large, double, open and very lasting. The color is orange-apricot finishing deep buff with an overcast of pink on the edge of the petals. Has vigorous growth and abundant continuous bloom in spring. One of the new climbing roses of which we are quite proud. Although not everblooming, the flowering period is long extended.

GOLDEN MAIN (W. Kordes Sons 1936). Patent No. 254. **(Retails $1.25 each; $12.50 per doz.)** The purest yellow rose of the undiluted clean glistening yellow of a dandelion in the morning dew. Blooms are medium large with many but small petals, giving the bloom a rounded form of a peony. A very ornamental plant of great floribundity.

GLOAMING (J. H. Nicolas 1935). Plant Patent No. 137. **(Retails $1.00 each; $10.00 per doz.)** A cut-flower variety which has proved a "winner" wherever grown. Its large buds are carried on long rigid stems amply clothed with handsome foliage. The plant is vigorous and branching, fairly tall growing. Bloom is of unusual coloring—fawn orange in the bud and the large full blooms are of a peculiar pink overlaid with salmon.

GLOIRE DU MIDI (DeRuiter 1932). Plant Patent No. 270. **(Retails .75 each; $7.50 per doz.)** The name means "Glory of the South" and was suggested by the ability of the color to stand the hottest sun without burning. It is a great improvement over Gloria Mundi—the plant is more compact and holds its foliage better, the trusses are larger, the orange-scarlet color is more brilliant and steadfast but does not clash with other rose colors.

GOLDEN CLIMBER (W. D. Brownell 1933). Plant Patent No. 28. **(Retails $1.00 each; $10.00 per doz).** Its buds, of the Hybrid Tea type are flecked with orange-scarlet and come on stems 18 inches or longer. Excellent for cutting. Hardy, vigorous grower. Sparse bloomer, but the quality of the flowers makes it quite desirable.

***HECTOR DEANE** (McGredy 1939). Patent Applied For. **New this year. (Retails $1.50 each; $15.00 per doz.)** A radiant newcomer from Ireland, which accommodates itself happily and vigorously to our conditions. So fragrant is this Rose that a single plans scents the whole garden with true old Rose scent. The bud is crimson with a suggestion of orange in the depths, the orange diffusing as it opens, leaving at the heart only a clear circle of yellow. Bloom is informal in its opening, the petals reflexing in irregular and unusual manner. Almost rampant in its growth, this McGredy hybrid is exceedingly liberal and constant in bloom. **Supply Limited.**

***HOLSTEIN** (Kordes 1939). Patent Applied For. **New this year. (Retails $1.00 each; $10.00 per doz.) Available Spring only.** A grand advancement in the Floribunda Roses coming to us from Kordes, the greatest hybridizer of the hardier, more resistant Floribundas. Producing immense clusters of brilliant red, it is a very important accent note wherever planted. The individual flowers are about four inches, have six petals and have an interesting white eye which raises and brightens the effect of the massive heads. The bush grows about two feet and has vigorous healthy foliage. Use it wherever you use Floribunda Roses in borders, in group plantings and in massive displays.

J. & P. ROSE SPECIALTIES—Continued

JEAN COTE (Gaujard 1936). Plant Patent No. 321. **(Retails $1.50 each; $15.00 per doz.)** Large, ovoid bud, of deep brownish orange; mammoth bloom, full to the center, but the petals are not crammed. The color is a solid orange, almost brown. Flowers come singly and continuously on good stems. Fruity fragrance. The plant is of medium height and branching. Large glossy foliage.

***JOYOUS** Floribunda. (DeRuiter 1939). Patent Applied For. **New this year. (Retails $1.00 each; $10.00 per doz.)** An interesting deep sport of Else Poulson. Pomegranate colored buds opening to lovely Begonia-rose, semi-double flowers, give the variety a keen interest. It fades less and is more effective in hot dry climates than its parent. A very fine rose for cutting.

***JUNE MORN** Clbr. (J. H. Nicolas 1939). Patent Applied For. **New this year. (Retails $2.00 each; $20.00 per doz.)**

"..... And to what shall I compare it
It has a glory, and naught else can share it."
Keats

A rare and lovely color for a rambler, or indeed for any rose! The opening buds show a deep watermelon pink on the inside of the petals, gold on the outside; the fully expanded flowers soften to a translucent rosy red with lemon yellow on the reverse. The many flowered clusters of gay blooms almost cover the luxuriant deep green leathery foliage. Double well petaled flowers, fully five inches across when open, appear in great profusion during the two generous blooming periods, in spring and October. The bush is a healthy, tall-growing pillar, rather than a rampant climber. June Morn takes its place gracefully in any garden color scheme; moreover its foliage makes it a garden asset whether blooming or not.

MARY HART (Geo. Hart 1931.) Plant Patent No. 8. **(Retails $1.00 each; $10.00 per doz.)** A striking red sport of Talisman. The bud is maroon red, opening to well-formed blossoms of deep velvety blood-red with an overglow of amber. Unlike most red Roses, Mary Hart does not wilt or dry out when cut, but opens perfectly.

MATADOR H. T. (Van Rossem 1935.) Plant Patent No. 170. **(Retails $1.00 each; $10.00 per doz.)** Large full rose, well formed, scarlet crimson with darker silky sheen on the reverse, very perfumed, vigorous, healthy plant.

McGREDY'S TRIUMPH Plant Patent No. 190. **(Retails $1.25 each; $12.50 per doz.)** Geranium-red flushed orange, gradually deepening to rich orange at base. The color tone is even throughout, reminding one of a brilliant ripe strawberry flushed scarlet and orange. The flowers are very large, full and of perfect shape. In addition to the brilliant and unusual coloring of the flowers the extraordinary freedom and habit of growth is something far from the every day Rose. The stems are dark mahogany red, and the foliage is extra large, dark, reddish bronze in color, and of great beauty.

McGREDY'S PINK (McGredy 1936). Plant Patent No. 341. **(Retails $1.50 each; $15.00 per doz.)** The color is a beautiful bright rose. As the flower opens the outer petals shade to a pearly cream and pink with a saffron-yellow base. The blooms are large, of perfect form, and sweetly scented. They are produced on stiff stems, free and continuously from early Summer to late Autumn. The long stems are covered with dark green foliage and few thorns. A fine rose for exhibition and garden purposes.

McGREDY'S PRIDE (McGredy 1936). Plant Patent No. 339. **(Retails $1.50 each; $15.00 per doz.)** In the young stage color of the blooms is orange and salmon pink, flushed and veined saffron-yellow. Outside of petals yellow cadmium, flushed flesh-pink. The buds are long and pointed, the large, full flowers are of a wonderful brilliancy and borne freely on long, stout stems. The blooms are remarkably long-lived, both on the plant and when cut. Not liable to damage by rain. As a garden and bedding Rose this variety is outstanding.

McGREDY'S SUNSET (McGredy 1937). Plant Patent No. 317. **(Retails $1.50 each; $15.00 per doz.)** A variety which is aptly named. The outside of petals is a clear buttercup yellow, tipped orange, while the inside is chrome yellow, flushed with scarlet as it opens. The color is intensified as the blooms expand and is at its best when fully opened. Flowers are of medium size, full and shapely with a pleasing fragrance, very freely borne on strong upright stems. Very sun resistant. Excellent in hot weather. An outstanding rose and a real "best seller."

MISS AMERICA (Nicolas 1937). Plant Patent No. 264. **(Retails $1.00 each; $10.00 per doz.)** Wonderful new rose which has almost everything a good rose should have. It has vigor, fine healthy foliage, extreme hardiness, a lovely color, fragrance and persistence of bloom. The color is flesh with salmon and gold suffusion, faint gold at the base, and frequently with a salmon center. Flowers average 65 petals and are produced singly on long stems all through the season.

J. & P. ROSE SPECIALTIES—Continued

MME. JEAN GAUJARD (Gaujard 1934). Plant Patent No. 338. **(Retails $1.50 each; $15.00 per doz.)** A vigorous growing upright two-toned rose. The color and form reminds you of Rev. F. Page Roberts. The bud is long and graceful. The half open flowers are high centered. The full open flowers are cupped. The color at first is light carmine buff on outside of petals and a yellow buff on inside. These soften as flowers open into a lovely soft buff. A most desirable rose for garden and cutting. Gold Medal C. F. S. R., France, 1934. Certificate, Colle Oppio, Italy, 1937.

MRS. FRANCIS KING (J. H. Nicolas 1936.) Plant Patent No. 253. **(Retails $1.00 each; $10.00 per doz.)** A hybrid of Nutkana and related to Leonard Barron, first of that breed. Very large and full rose, first tinted cream and ivory, eventually turning to white. Something different from the usual rose.

NIGRETTE (M. Krause 1934). Plant Patent No. 87. **(Retails $1.00 each; $10.00 per doz.)** "The Black Rose of Saugerhausen." Its originator describes it as follows: "The flowers are medium size, deep maroon with blackish velvet sheen and quite fragrant. It is the darkest of roses.

PERMANENT WAVE Floribunda. (M. Leenders 1932). Plant Patent No. 107. **(Retails .75 each; $7.50 per doz.)** The name fits the case. The petals are fluted or waved; permanently from the bud stage to the finish. Blooms rather large for the type, in great clusters. Rosy pink with cerise edges. Handsome plants, may be grown tall enough for a low hedge.

PRINCESS VAN ORANGE Clbr. (DeRuiter 1933). Plant Patent No. 106. **(Retails $1.00 each; $10.00 per doz.)** A dazzling new color in climbing roses. Branches literally covered with masses of brilliant orange-scarlet flowers, imparting an unusual radiant glow. A vigorous grower and exceptionally hardly. Occasionally repeats in fall.

POLAR BEAR (J. H. Nicolas 1934). Plant Patent No. 132. **(Retails $1.00 each; $10.00 per doz.)** New type, very hardy, hybrid of Rugosa, Nutkana and Polyantha. For hedges, shrubs, or bedding. Large, full blooms of H. T. type, white with faint blush, very fragrant, continuous bloomer.

RADIANT BEAUTY (Cleveland Cut Flower Co. 1935). Plant Patent No. 97. **(Retails $1.00 each; $10.00 per doz.)** Lives up to its name, and it is an improved form of Francis Scott Key, opening to a perfect rose in all weather. The color is a peculiar red; the Petals are neither velvety nor satiny but of an unusual eggshell finish. Hardy, vigorous grower.

REX ANDERSON (McGredy 1937). Plant Patent No. 335. **(Retails $1.50 each; $15.00 per doz.)** Handsome buds and roses of great size. Cream turning pure white with age. Good form of usual McGredy standard. Blooms are several on each stem and come in rapid succession. The plant is very vigorous with handsome dark green foliage.

ROCKET (J. H. Nicolas 1935). Plant Patent No. 171. **(Retails $1.00 each; $10.00 per doz.)** Exquisite bud of beautiful bright scarlet-red, on strong stem, unfurling slowly to large very double blooms, full to the brim of rich old rose perfume. Vigorous, hardy bush, very free flowering.

ROME GLORY (Aicardi 1937). Plant Patent No. 304 . **(Retails $1.50 each; $10.00 per doz.)** .A cross of Dame Edith Helen and Sensation. A most robust and vigorous plant, much more winter-hardy than most Hybrid Teas, producing in quick succession long stems bearing large crimson-red buds, opening into full, well-formed, fragrant, cerise-red blooms. The flowers are long-lasting on the plant or when cut and are not affected by dry or wet weather. We definitely recommend Rome Glory.

ROCHESTER Floribunda. (J. H. Nicolas 1934). Plant Patent No. 131. **(Retails .85 each; $8.50 per doz.)** A lovely constantly flowering Rose of the bedding type. Great freedom of bloom. Blossoms of clear two-tone pink and buff, deeper in center, having coppery tinges and with yellow at the base of petals. Foliage heavy and disease-resistant. Growth vigorous. Extremely hardy; more popular each year.

RONSARD (Gaujard 1937). Plant Patent No. 284. **(Retails $1.50 each; $15.00 per doz.)** A new type of bedding rose of the most astonishing coloring. Its bud is yellow, but gradually the edges of the petals curl back and show deep scarlet-red inside, thus creating a flamboyant color contrast which persists to the end. The blooms are of medium size and produced in great quantities throughout the season without interruption. The plant is of Rugosa and Austrian Copper descent and belongs to the hardy class of garden roses, but the bloom and habit are Hybrid Tea.

***SATAN** (Pahissa 1939). Patent Applied For. **New this year. (Retails $1.50 each; $15.00 per doz.)** The name aptly suggests the dark glowing velvety carmine color of this grand Rose. It deepens in its recesses to a darker red. A richly beautiful, high-centered flower loaded with heavy perfume. Its long-lasting blooms come on strong-growing plants that are easy to care for.

We cannot undertake to supply long and much assorted lists of stock calling for only small quantities of each kind, save at an advance above our printed rates according to quantity.

J. & P. ROSE SPECIALTIES—Continued

SATURNIA (Aicardi 1933). Patent Applied For. **(Retails $1.00 each; $10.00 per doz.)** Flowers brilliant cardinal red, reverse salmon-yellow and copper. Awarded gold medal given by Governor of Rome for best new Italian Rose Colle Oppio Rose Garden, Rome.

SIGNORA (Aicardi 1936). Plant Patent No. 201. **(Retails $1.25 each; $12.50 per doz.)** This Rose from the land of sunshine and Chianti wine, is a real masterpiece, in both plant and bloom. Long bud of a warm burnt sienna opening to a lighter hue toward mandarine. The plant is tall growing with every bloom on a long stem. Foliage is handsome. Indispensable to those who grow roses mainly for cutting.

SNOWBANK Floribunda. (Nicolas 1937). Plant Patent No. 279. **(Retails .85 each; $8.50 per doz.** Large flowering, low-growing Polyantha. Buds buff-orange, opening to semi-single blush-white flowers and turning pure white. They are borne in large panicles and are very long-lasting. Always in bloom. Excellent for mass planting or border. **Supply Limited.**

A part of our Newark Rose block. Photo July 19, 1939 showing the new Floribunda Smiles.

SMILES Floribunda. (Nicolas 1937). Plant Patent No. 331. **(Retails .85 each; $8.50 per doz.)** A lovely variety deserving the name. Brilliant salmon-pink flowers, semi-double, 3 inches across, in great masses all the time and of great duration in all weather. Medium growing plants, branching with handsome foliage. Large plantings in our public gardens have greatly impressed visitors.

SUMMER SNOW CLBG. (Couteau 1936). Propagation Rights Reserved. **(Retails $1.50 each; $15.00 per doz.)** (Remontant). A perpetual blooming form of White Tausendschon. An established plant is covered with snow white repeating throughout the summer. Effective as a pillar or on a fence.

SUMMER SNOW DWF. Floribunda. (Coutea 1936). Propagation Rights Reserved. **(Retails .85 each; $8.50 per doz.)** White flowers. Clusters and flowers similar to Echo but clear white. Continuous in bloom. Very good.

The Wholesale Prices in our lists apply only on Wholesale Quantities. Orders should call for ten of a kind and size, and beyond that for multiples of ten. Stock in our storage buildings is tied in 10's and we prefer not to break bundles if avoidable.

J. & P. ROSE SPECIALTIES—Continued

VISCOUNTESS CHARLEMONT Floribunda. (S. McGredy & Son 1937). Propagation Rights Reserved. **(Retails $1.00 each; $10.00 per doz.)** Buds are salmon rose, shading off into a satiny rose pink as the blooms develop; deep buttercup yellow at base of petals. The blooms are large, full and perfectly formed; very fragrant. Foliage is dark cedar green, with reddish brown thorns on long strong stems. The variety blooms in large clusters of flowers and is very showy. It may also be disbudded.

WORLD'S FAIR
The spectacular velvety Red — large flowered sensation of the New York World's Fair Floribunda Group.

*WORLD'S FAIR

FIRST award — "All America Rose Selection" for Floribundas 1940

(Kordes 1939) Patent Applied For. **.NEW THIS YEAR.** .We have selected this Rose to carry the name of this magnificent exhibition. It will furnish a continuous display of color from late spring until frosts stop the performance. Ideal, bushy plants just about hide themselves under clusters of large velvety blooms of blackish scarlet, the fragrant petals surrounding a glowing mass of golden stamens. A very large-flowered Floribunda. Dedicated to the New York World's Fair 1939 and an outstanding feature of the J. & P. World's Fair Rose Gardens.

RETAILS $1.00 each—3 to 49 plants 90c each—50 to 100 plants 80c each.

WHOLESALE—1 to 9 Plants	.67 each	(1-3 off retail price)
10 to 19 Plants	.55 "	(45% off retail price)
20 to 249 Plants	.45 "	(55% off retail price)
250 to 499 Plants	.40 "	(60% off retail price)
500 or over Plants	.35 "	(65% off retail price)

We cannot undertake to supply long and much assorted lists of stock calling for only small quantities of each kind, save at an advance above our printed rates according to quantity.

J. & P. ROSE SPECIALTIES—Continued

WHITE AACHEN Floribunda. (Western Rose Co. 1937). Propagation Rights Reserved. **(Retails .75 each; $7.50 per doz.)** A sport of Gruss an Aachen with all the good qualities of this well-known bedding rose. The first color showing in the bud is buff-yellow, which gradually disappears until the open bloom is pure white. Flowers not quite as large as Gruss an Aachen but they come in greater profusion.

WHITE BRIARCLIFF Mme. Louis Lens. (Lens 1933). Plant Patent No. 108. **(Retails $1.00 each; $10.00 per doz.)** An absolutely pure wihte Hybrid Tea Rose. A supreme white Rose, with the finest form since bride's roses have been grown. Vigorous, bushy plants. Tremendous producer and ideal for cutting.

YOSEMITE H. T. (J. H. Nicolas 1934). Patent No. 109. **(Retails $1.00 each; $10.00 per doz.)** Vigorous bushy plant of continuous blooming habit. Buds orange scarlet in clusters opening to medium large semi-double blooms orange scarlet with a suffusion of carmine on the reverse.

YELLOW GLORIA H. T. (Bertanzel 1936). Plant Patent No. 240. **(Retails $1.00 each; $10.00 per doz.)** An orange yellow sport of Talisman with fully double, high centered flowers on long stiff stems. It is a very popular cut flower variety which is performing exceptionally well in the garden. Available Spring Only.

***ZULU QUEEN** (Kordes 1939). Patent Applied For. **New this year. (Retails $1.50 each; $15.00 per doz.)** A magnificent dusky maroon Rose, almost black in its rich depths—the flowers very large and full petaled. Large, dark green leaves and a stalwart, well-proportioned bush. A rose with distinct vigor and beauty, it does not shrink from the sun, but holds its color magnificently in torrid weather. While not an exuberant bloomer, it is far from sparse. Every glorious blossom, held singly on a strong stem, is a rich reward to the discriminating Rose grower. Supply limited for 1939-40. **(Available Spring Only in Small Quantities).**

THE FLORIBUNDA GROUP

Floribunda roses in a new shrub border where they give interest and color all summer long. Joyous to right, Betty Prior and Smiles in center with Pink Aachen to the left.

The Wholesale Prices in our lists apply only on Wholesale Quantities. Orders should call for ten of a kind and size, and beyond that for multiples of ten. Stock in our storage buildings is tied in 10's and we prefer not to break bundles if avoidable.

THE FLORIBUNDA GROUP—Continued

Another view of the Floribunda section of the J & P New York World's Fair Garden. Summer Snow center, World's Fair right, Joyous left.

The Floribunda group of roses represents varieties especially bred for hardiness, sturdiness, ease of culture and mass color effects. The habit of growth is of medium height, they are very winter hardy, therefore, permanent, disease resistant, bloom continuously in large clusters and do not fade unpleasantly in hot summer suns.

The clusters are comprised of fairly large flowers often 50 or 60 together in one head. The flowers vary in petalage from the singles and semi-singles of the Poulsen type, to the Hybrid Tea shaped semi-double flowers of the Rochester type and the full double flowers of the Aachen type. The colors include almost the entire range known in the Hybrid Tea field.

The group does not include any one particular strain but is the result of intensive hybridizing both here and in Europe, to make available in desirable colors and shapes the arcticness of many species and varieties. It represents such hybridizers as Poulsen, Kordes, Prior, Nicolas and others.

The Floribunda varieties should be planted in groups of three or more of a kind. Plant them among the shrubs for continuous color. Use them as hedges or borders. Mass them by thousands for color effect in parks and along roadsides. When planted 15 to 18 inches apart they will shade the ground and the flowers will blanket the foliage. In the smaller gardens they also are a continuous source of excellent cut flowers for the house.

Thousands of people who visited our display and test gardens at Newark this year and the N. Y. World's Fair Garden acclaimed the Floribunda roses as a long sought group filling a long felt want.

McGredy's New Irish Roses

For five years we have had the exclusive rights of testing and distributing the famous McGredy's Irish Roses. "McGredy" is a garden-hold word throughout the world. No house has contributed more to the embellishment of our gardens. We will always remember and are still growing the old standbys **Mrs. Wakefield Christie Miller** (1909), **Mrs. Henry Morse** (1919). Later came the unsurpassed **Margaret McGredy** (1927), the masterpiece **Mrs. Sam McGredy** and the lovely **McGredy's Ivory** (1929),**McGredy's Scarlet** (1930) and **McGredy's Yellow** (1934). McGredy's Irish Roses are distinguished by their perfection of form, handsome foliage, strong robust plants.

Of the more recent introductions of this great rose hybridizing establishment, we have selected the following varieties which we can recommend unreservedly to all American rose lovers:

Dorothy McGredy. See Hybrid Teas.....

Hector Deane. See Specialties and Hybrid Teas.....

McGredy's Pink. See Specialties and Hybrid Teas.....

Other Patented Roses and Novelties

Wholesale prices in accordance with the regular schedule for patented Roses.

(The Patented Roses listed below are being handled under license from the patent owners.)

CRIMSON GLORY (W. Kordes Sons 1935). Plant Patent No. 105. **(Retails $1.25 each; $12.50 per doz.)** Buds are long pointed; flowers large, semi-double, full, deep velvety crimson; intensely fragrant and very lasting; foliage, abundant and leathery; spreading and bushy grower; continuous bloomer. A very fine dark red rose.

FLASH

First award — "All America Rose Selections" for Climbers 1940

(R. M. Hatton 1938 Patent Applied For. Luminous orange-scarlet. The name is descriptive of the shimmering color but does not mean a "flash" duration of bloom, for the flowers open daily for weeks, beginning early in June. Color is vivid orange-scarlet with the back of petals yellow, suffused with scarlet. The center of the flower is gleaming yellow and filled with golden anthers. Buds are yellow with scarlet suffusion giving a suggestion of the dazzling blooms that are to follow.

RETAILS $1.00 each—3 to 49 plants 90c each—50 to 100 plants 80c each.

WHOLESALE—1 to 9 Plants	**.67 each**	**(1-3 off retail price)**
10 to 19 Plants	**.55 "**	**(45% off retail price)**
20 to 249 Plants	**.45 "**	**(55% off retail price)**

500 or over Plants	**.35 "**	**(65% off retail price)**

GOLDEN STATE (F. Meilland, 1938). Patent applied for. **(Retails $1.50 each; $15.00 per doz.)** Golden yellow. A long-stemmed, long lasting cut flower.

MME. HENRI GUILLOT (C. Mallerin, 1938). Patent Applied For. **(Retails $1.50 each; $15.00 per doz.)** This charming two-toned Rose is a harmony in deep watermelon to raspberry-pink, heavily veiled with reddish orange, which produces an enchanting, flame-like glow of flashing scarlet. The artistic, long, urn-shaped buds open to camellia-shaped, 20 petaled blooms, 4½ inches across, with large, velvety textured shell-like petals. 1936 Gold Medal Bagatelle.

NEW DAWN Clbr. Plant Patent No. 1. **(Retails $1.50 each; $15.00 per doz.)** Everblooming Dr. VanFleet. Vigorous free blooming.

ROCHEFORT (C. Mallerin 1936). Plant Patent No. 191. **(Retails $1.25 each; $12.50 per doz.)** Orange old-rose—a most unique color. Large ovoid buds range in color from terra-cotta to orange-copper. The hundred-petaled blooms open to 3½ inches wide, full to the center and change to old-rose color before the petals drop. Strong fragrance like a mixture of spices.

R. M. S. QUEEN MARY (Verschuren 1938.) Plant Patent No. 249. **(Retails $1.50 each; $15.00 per doz.)** The blooms are of a glorious combination of vivid shades, blending rich glowing salmon with an exquisite pure pink and with an orange base. They are full and freely produced on strong vigorous plants, delicately perfumed.

TEXAS CENTENNIAL (Dixie Rose Co. 1935.) Plant Patent No. 162. **(Retails .85 each; $8.50 per doz.)** A sport of President Hoover with all its wonderful plant qualities. Color is blood red toning to cerise red in center. Most striking new red of unusual color. These prices apply on Newark grown plants. (Dixie Rose Nursery, Tyler, Texas, has authorized a minimum retail price of **60c each**).

Roses

Ramblers and Climbers

GRADES. For early fall delivery we offer No. 1 grade only. For late fall and spring delivery we can supply No. 1½ (Medium) grade and No. 2 grade, except in Patented varieties. .**The following prices apply on 2-yr. No. 1 grade** for late fall and spring shipment and when early fall shipment is required an extra charge of 3c per plant is made to cover cost of spade digging and stripping.

	Each	Per 10	Per 100

The Wholesale Prices in our lists apply only on Wholesale Quantities. Orders should call for ten of a kind and size, and beyond that for multiples of ten. Stock in our storage buildings is tied in 10's and we prefer not to break bundles if avoidable.

Tree Roses

3½ Ft. Stems
(Delivery Late Fall or Spring Only)

Our Tree Roses are worked on to a special strain of multiflora and Lagriffera stem. They are hardy. They transplant better and the stems expand in proportion with the tops, which feature is very essential for success and lastingness of tree roses. They are not subject to borers which attack and destroy Rugosa Stems, and they are far superior to the IXL stock so commonly used and which is tender, and also, which stem does not expand with the growth of the top.

Prices $15 00 per 10 — $125 00 per 100

Alezane. (Plant Patent No. 116). Rich apricot.
Alice Harding. (Plant Patent No. 202). Golden yellow.

CHRYSANTHEMUM WHITE GULL A dwarf baby pompon not exceeding 12 in. Growth very compact. Flowers produced in great abundance; pure white. 1 in. in diameter and is in full flowering in September.....	2 50	20 00	175 00
CHRYSANTHEMUM PYGMY GOLD A distinct dwarf Korean pompon type, producing quantities of miniature blossoms slightly over 1 in. across. The color is a clear yellow, remarkable for its brilliance and intensity. Commencing to flower in early September, it is easily the most colorful early chrysanthemum yet introduced. Unusual also, because it retains its effectiveness right up until the season ends. Grouping in the rock garden or yard border or used for edging, it will prove the delight of the Autumn.....	2 00	15 00	125 00
COREOPSIS GOLDEN GIANT A glorious new large flowered coreopsis. The flowers are four inches in diameter and perfect in form. The color is an outstanding true golden yellow.....	90	7 00	60 00

A DELPHINIUM MILESTONE

(See photo next page)

Here is our first offering of named strains. True, not quite as perfect as cuttings, but so grandly uniform in color, form of spike and size that we are confidentially offering them as our contribution to American Gardens.

For ten years we have been hand pollenating the selected survivors of our Northern New York winters. We have had each year 200,000 to 300,000 seedlings. By rigorous careful selection, we have built our strains with greater hardiness, greater disease resistance, greater longevity and "all out at once spikes."

Our strains are all double flowering, the spikes vary in shape from the straight columnular of Desirable to the wider cylindrical of Divine. The individual flowers are well balanced on each spike and in excellent size proportion, for at no time have we sacrificed uniformity and proportion in our spikes and colors to exotic size of either flower or height.

The plants are of medium height and should do exceptionally well in all gardens.

DEBUTANTE Pure white. Double. Grows 4½ to 5 ft. A Clear clean strain of white. No dark eyes. The spike is columnular fairly loose in form and beautiful in its purity. The flowers are medium sized—about 2½ in. in diameter and not crowded on spike. A very fine white.

$3 00 per 10; $25 00 per 100; $225.00 per 1000

DELIGHTFUL Double Blues—5-5½ ft. Blue is the true Delphinium color and also the most difficult of all to fix. Some plants vary a little in the shade of blue but all are real blues, which can safely be used for the blue garden. The flowers are medium sized on well balanced, well spaced spikes. This strain is the most accurate uniform blue strain now available.

$3 00 per 10; $25 00 per 100; $225.00 per 1000

DESIRABLE True violet, double, 4½ to 5 ft. A rather close cylindrical spike. The true violet color is accentuated by a white eye. The petals are stiff, making a long lasting flower. The wiry stem is particularly able to withstand winds and storms. Foliage clean. A lovely shade for the violet purple border.

$3 00 per 10; $25 00 per 100; $225.00 per 1000

DIVINE Pink lavender, 5 to 5½ ft. with a 2½ to 3 ft. flower spike. Large individual flowers lightened with a white eye. The spike is broadly cylindrical. Foliage is clean. This grows a little taller than the others.

$3 00 per 10; $25 00 per 100; $225.00 per 1000

DELPHINIUM PINK SENSATION Plant Patent No. 324.
Pot Plant for Spring Only.
Subject to Crop

HELIANTHUS LODDON GOLD Enormous Dahlia - like flowers of a bright yellow color. Flowers 5 in. diameter. Height 4-5 feet. September-October	2 00	15 00	125 00
HELIANTHUS CORONATION A fine introduction of this noble race of border plant. Bearing large, perfect double flowers of a rich yellow color from August-October. Height 4-5 ft.....	2 00	15 00	125 00
HELIOPSIS INCOMPARABILIS SUMMER GOLD A novelty of great merit with large semi-double flowers of Golden Yellow. 3-4 inches across. Very free blooming from June until frost. Last 10 days as cut flowers. 3 ft.....	3 50	30 00	275 00

Heuchera Queen of Hearts. A larger flowered, darker red Rain of Fire.

HEUCHERA QUEEN OF HEARTS Deep glowing coral-scarlet, long period of bloom; very free. Individual flowers are almost twice the the size of Rain of Fire. Color much deeper.

$3 00 per 10; $25 00 per 100; $225 00 per 1000

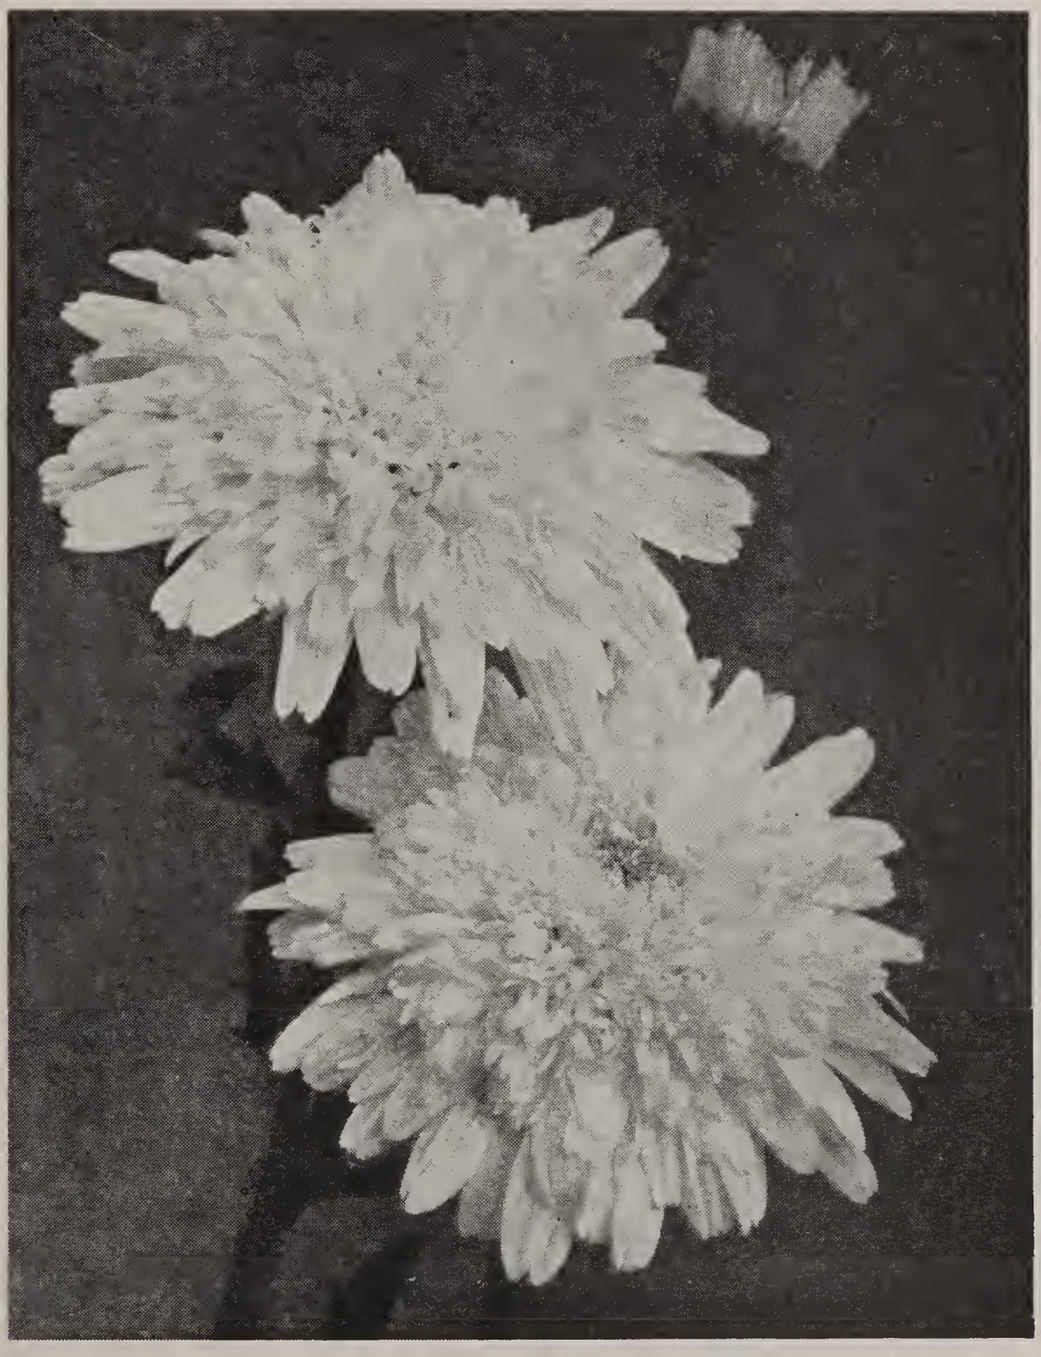
NOVELTIES AND BETTER NEW VARIETIES IN PERENNIALS—Continued

	Per 10	Per 100	Per 1000
HEMEROCALLIS MARGARET PERRY Brilliant coppery crimson flowers with clear yellow base. A vigorous tall grower. Five to six feet. A real plant for backgrounds	1 75	15 00	125 00
HEMEROCALLIS MRS. W. H. WYMAN Perfectly formed clear yellow flowers with bloom from July to September. A very fine addition of color to the summer garden. One of the most consistent of the newer strains	3 00	25 00	200 00
PAPAVER ORIENTALE WURTEMBERGIA Very large flowers of brilliant rosy-red. Most striking	1 25	10 00	80 00
PHLOX SUBLATA BLUE HILLS A much improved Lilacina. A strong plant covered with clean light blue flowers. Clean foliage all summer. May-June	1 25	10 00	
PHLOX SUBLATA ATROPURPUREA The best red sublata Phlox. Deep carmine red flowers. May-June	1 00	8 00	
PHLOX SUBLATA NIVALIS DIXIE BRILLIANT Pat. pending. Dense mossy green foliage completely covered with large rosy-red flowers of half dollar size. Strong grower. Excellent for low beds, borders and sunny places in the rockery. **Retails 40c each; 3 for $1.00; 12 for $3.50.**	2 00	15 00	
PHLOX DAILY SKETCH Extra large trusses and individual flowers. Light salmon pink, with faint carmine eye. An outstanding Phlox—one of our recent introductions	1 25	10 00	80 00
PHLOX HARVEST FIRE An innovation in Phlox novelties. A brilliant salmon-orange color on a vigorous bush. It has clean disease-resistant foliage, which stays on throughout the summer. The heads are large as well as the individual flowers. Undoubtedly the best of the new phlox introduced in recent years and well worth trying for its health, color, and vigor of growth	2 50	20 00	175 00
PHLOX BLUE BOY Blue Phlox are hard to obtain. As a rule, in the drier climates they show their color better in semi-shade. This is the bluest Phlox we have had. Very free flowering with a leathery foliage. Rather low broad flowering habit. Good	2 50	20 00	175 00
PHLOX SALMON BEAUTY Rich salmon pink with white eye. Each year some new Phlox is offered in the salmon field, we think that this variety is surpassed by none. It produces a large spike with large individual florets. An exceptional Phlox	2 50	20 00	175 00
PHLOX TIGRESS The outstanding Phlox. Vigorous, upright growing, with immense trusses of BRILLIANT ORANGE SCARLET flowers. The trusses are huge pyramids which are built up by long branched laterals, giving an unusually long period of bloom. Quarter page color plate available	1 75	15 00	125 00
PHYSALIS GIGANTEA GIANT GLOBE Large fruit enclosed in brilliant orange scarlet Chinese Lantern like calyces. Invaluable for winter decoration. A great improvement on the common Chinese Lantern	2 00	15 00	125 00
PRIMULA VERIS COLOSUS A European Novelty. The name describes the size of the flowers which are well formed and many over two inches across. The plants are sturdy with healthy foliage. This strain has a larger range of colors and includes besides the yellows, lilac, pink, coppery reds and dark reds	2 50	20 00	175 00

The Wholesale Prices in our lists apply only on Wholesale Quantities. Orders should call for ten of a kind and size, and beyond that for multiples of ten. Stock in our storage buildings is tied in 10's and we prefer not to break bundles if avoidable.

NOVELTIES AND BETTER NEW VARIETIES IN PERENNIALS—Continued

	Per 10	Per 100	Per 1000
SHASTA DAISY CHIFFON (Chrys. Max.) A daintily frilled Shasta which grows about 18 in. tall. The flowers are formed by a double row of narrow petals frilled and flared at the edges. The center is a clear yellow. The flower is about 3 in. across. The general effect in the garden and in a vase is one of light airiness and pleasing daintiness	1 50	12 50	100 00
SHASTA DAISY WHITE SWAN Clusters of pure double, pyrethrum-like flowers on strong stems. Ideal for cutting, late May-June, 2½ ft.; very free bloomer	80	7 00	



SHASTA DAISY, ESTHER REED.

SHASTA DAISY ESTHER REED The first truly double variety. Undoubtedly one of the finest intrduced in recent years. An abundance of pure white flowers of good, lasting quality are borne on strong upright stems. The individual blooms measure 4 in. in diameter. The flowers appear continuously throughout the summer and fall. It grows about 18 in. high, makes a fine clump; blooms from June to October. Potted plants. Spring	3 50	30 00	250 00

NOVELTIES AND BETTER NEW VARIETIES IN PERENNIALS—Continued

	Per 10	Per 100	Per 1000
TROLLIUS EMPIRE DAY Large globe shaped flowers, orange yellow with deeper orange stamens. Blooms May and June	1 75	15 00	125 00
TROLLIUS LEDEBOURI GOLDEN QUEEN Truly a queen of the Trollius. Blooms June and July. Rich golden flowers with orange stamens. Will grow in semi-shade. Three feet. A decided improvement on Trollius Ledebouri due to its larger petals and fuller flowers	1 75	15 00	125 00
VERONICA BLUE SPIRE A new addition to the blue summer flowering Veronicas. It is a cross between Veronica Longifolia Subsessilis and Veronica Spicata. It has retained the dark foliage and the deep rich color of the Subsessilis with the bushy habit of the Spicata. Grows about 2 in	1 25	10 00	80 00
VERONICA SPICATA RUBRA Similar to Spicata rosea. Dark rose, almost red colored spikes; very free flowering. August-October. 12 in..	1 75	15 00	125 00

Left, SHASTA DAISY, CHIFFON. Right, ESTHER REED.
These are making Fine plants.

DELPHINIUM HYBRIDS

A Corner of one of our last year's 2 year blocks, showing the columnar, compact spike.

PERENNIAL PHLOX

r PHLOX SUBLATA

Moss or Mountain Pinks

An early spring-flowering type with the beautiful moss-like evergreen foliage, which during the months of April and May is hidden under the masses of bloom. Fine plants for the rockery, border, and invaluable for covering graves or where a carpet of flowers is wanted. Because of its earliness to flower, it needs to be in every rock garden.

FRUIT DEPARTMENT

An "airplane" view of our 2 year Apple Block at Newark. One of the most uniform and consistently good fruit blocks we have ever produced.

All our fruit trees are regularly inspected for trueness to name under the direction of Dr. J. K. Shaw of the Massachusetts State College, and you can rely on their being genuine.

Terms and Conditions of Sale

This list cancels all previous quotations. All agreements and contracts are made subject to crop losses through unavoidable causes, and in accordance with provisions of statement of existing Federal laws appearing on title page.

THE PRICES in this list are based upon present market conditions and are subject to change without notice. These are wholesale prices and apply only to wholesale quantites; in no case will we fill retail orders even from nurserymen. All orders should be made up for 10's or multiples of 10.

TERMS. 60 days net, 2% discount 10 days, from date of shipment. Interest at 6% per annum to be paid after maturity. These terms are offered to those of established credit. Cash, security, or satisfactory references are required from unknown parties.

SHIPPING. Customers are requested to give definite instructions for shipping. In the absence of special instructions we will use our own judgment, but with the distinct understanding that it is without responsibility on our part. All shipments travel at the risk and cost of the purchaser. We have the New York Central, and the Pennsylvania Railroads, enabling us to ship in any direction over trunk lines.

BOXES will be charged for at the rates noted below.

Smaller or larger boxes in proportion, paper lining additional at cost.

BALES will be charged at actual cost.

CLAIMS for any cause must be made promptly on receipt of goods. Any stock that is not exactly as represented must be reported promptly and on authority should be returned to us immediately. We will cheerfully and without question credit back the unsatisfactory plants, or send others; but we will not entertain claims made after goods have been once accepted, or when report is not made within ten days after arrival of the stock.

LIMITED LIABILITY AND NON-WARRANTY. We express or imply no warranty as to productiveness or life of the stock we sell. It is mutually agreed that our liability for untrueness to name is confined to free replacement or refund of purchase price plus interest, and should the stock prove to be untrue to the name under which it is sold, it is further agreed that such adjustment shall be the liquidated damages and all the damages to which the purchaser shall be entitled by reason of the premises.

INSPECTION AND FUMIGATION. Certificate of Inspection will be furnished with every shipment and, when required, stock will be fumigated.

SPECIAL NOTICE. Correspondents are requested to use their printed business letterheads. We do not quote prices to retail buyers. We use every effort to limit the distribution of trade prices to those whom we know to be entitled to receive them.

LOCATION. We are located 30 miles east of Rochester, N. Y., and cordially invite a visit and inspection of our establishment.

Newark, New York, September 9, 1939 **JACKSON & PERKINS COMPANY**
